## Seat Foam

- Good quality reproduction
- Made to factory dimensions for maximum fit and comfort

The back bolster pockets are mesh-reinforced to prevent tear out, a common problem on the original foam. Correct size, shape and foam density. Correct hook fasteners are embedded in the foam, not glued on the surface. Molded on trim lines on the bottom pieces aid in trimming for power seat controls.

## Interior Dye

- Exact match in color
- Long lasting (outlasts paint)
- 12 oz. Aerosol spray or quart size

Formulated and mixed to match our leather or vinyl interiors, this new dye normally requires only one coat if primer P/N 25-168625 or 25-168624 is used first. Made to last and retain color fastness, this dye will make your restoration or just interior upgrade perfect. The spray will cover most jobs, however when changing interior colors, it is recommended to a quart so your entire interior matches.

97-04	Quart.....	<b>25-245874<sup>Δ</sup></b>	<b>74.99</b>	ea.

## Interior Dye Prep and Clear Coats

Formulated to complement the interior dye for a professional and lasting appearance.

### Primer

Use our surface prep to remove dirt, oils and residue before priming. Fast drying and ready to paint in minutes

ALL	12 oz. spray.....	<b>25-168625<sup>Δ</sup></b>	<b>20.99</b>	ea.
ALL	Quart.....	<b>25-168624<sup>Δ</sup></b>	<b>30.99</b>	ea.

### Surface Prep

Along with the adhesive promoter, spray prep is specially formulated to give long wear to your newly dyed interior.

ALL	12 oz. spray.....	<b>25-257051<sup>Δ</sup></b>	<b>21.99</b>	ea.
-----	-------------------	------------------------------	--------------	-----

### Adhesion Promoter

Use the promoter after the spray prep. Promoter will create a bonding surface for the primer to adhere.

ALL	12 oz. spray.....	<b>25-257059<sup>Δ</sup></b>	<b>23.99</b>	ea.
-----	-------------------	------------------------------	--------------	-----

### Clear Coat

When using a high metallic color or just putting dye on hard plastic, use to protect against scratches or rubbing.

## Blank Ignition Keys

- Specially coded
- Includes cover

Because 1997 and later Corvettes have specially coded ignition keys, it makes good sense to have a couple of spares. To order a key, have your local GM dealer measure the resistance on your key (it will be a 2 thru 15 value code) and add that code to the part number listed below. We'll ship you the correct key which can then be cut by a local locksmith. It's as easy as that.

## Third Brake Light Pulsator Kit

- "Delay-repeat" circuitry
- Provides great visual display
- Plug and play installation
- No adjustments required

Your Corvette sits low and is not always easily seen by drivers who are behind you. This pulsator module can give you an extra measure of safety and piece of mind while driving. This "plug-n-play" harness simply plugs into your existing center high mount brake light. There are no wires to cut and no adjustments to make. The module automatically pulses your third brake light when you apply the brakes. The light will pulsate on and off for about a second, then stay on steady for as long as you press the brake pedal. The unit is designed to create a gentle fluttering of light, so your car is more noticeable, yet it doesn't aggravate the driver behind you.

97-04 ..... **25-190490<sup>A</sup>** **76.99** kit

## Back Off™ Third Brake Light Flasher Module

- A "must have" safety device
- Simple to install

The module wires into your existing third brake light with two wires in just seconds. After being installed, it causes your brake light to emit a visual alerting signal of three short light flashes, followed by one long light flash (3.5 seconds) every time to apply the brake. The signal automatically repeats itself as long as the brakes are applied. The module itself has about the same outside dimensions as a business card. An optional back off™ unit with three-wire hookup is also available which flashes the third brake light when you put your Corvette in reverse to alert drivers behind you. Instructions included.

## Heavy-Duty Tie Rod Ends

- A must for performance handling
- Reduces torque steering
- Reduces hub bearing wear

These heavy-duty rods are head and shoulders better than the stock rods for several reasons: (A) they withstand heat better (B) they have a much better side load capacity (C) they give longer threaded shafts to accommodate cars that are lowered.

## Hi-Performance Sway Bar End Links

- GM's answer to improve weak end links
- Cast aluminum
- Replaces plastic link on 1997-03's

In 2004 GM improved the stock front and rear sway bar end links by changing to cast aluminum instead of plastic. This change greatly reduces the possibility of heavy side loads pulling the studs out of the links. Use these links front and rear to upgrade on 1997-03's and as replacements for 2004 C5's.

## QA1 Coilover Shock Kits

- Replaces original springs and shocks
- Reduces unsprung weight for faster reaction to changing pavement
- Quick and easy ride height adjustments
- 18 Valve settings
- Kit includes two shocks, springs and hardware

The key difference in these QA1 coilover models is the range of adjustability. The single units have 18 various valve setting controlling rebound and compression simultaneously. This provides more definitive valving control settings that can be felt as well as graphed on a shock dyno. The QA1 coil-over system allows the enthusiast to remove the old transverse spring and utilize true four-corner "tuning" at each wheel through the use of the coil-overs. In general, we believe the 450 lb. spring rate is a great street use. Cannot be shipped by air.

## Baer Eradispeed Plus II Front Brake Rotors

- Provides Z51 size rotors on stock C5
  - Hi-performance, large diameter two-piece rotors
  - Includes brackets for bolt-on installation
- With Baer's Eradispeed Plus II upgrade kit you can change to Z51 size rotors without changing calipers and add hi-performance, two piece, lightweight rotors. Baer's lighter rotors reduce the unsprung weight and consequently improve handling. The front rotors are 13-3/8" vs. the stock size of 12-3/4" and the brackets make installation an easy, bolt-on procedure.

## CORSA Ultimate Crossover Pipe™

- Improves side-to-side exhaust flow
- Smooths out engine pulses for better throttle response
- Eliminates exhaust "idle burble" and popping on deceleration on most C5's

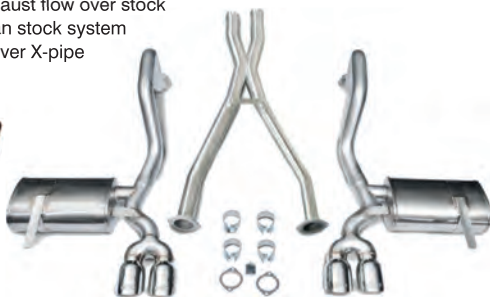

CORSA's 16 gauge stainless steel Ultimate Crossover Pipe™ can be used with factory and all aftermarket mufflers. Simply install it behind the O2 sensors with clamps and bolt it to the rear mufflers, no welding is required. It improves sound and performance and is the perfect complement to CORSA's Indy exhaust system. Instructions and all necessary installation hardware are included.

## DeWitt Direct-Fit Aluminum Radiators

- Up to 100% more cooling capacity
- Leak free, no epoxy

GM's 1997-04 radiator has a single row of cooling tubes and plastic end tanks that are epoxied in place. These direct replacement radiators feature 2 rows of cooling for as much as 100% additional cooling surface and have press-formed aluminum end tanks that are TIG welded to the core for a permanent seal. The core of this aluminum replacement is furnace brazed which provides a leak-free core without the use of epoxy.

## WeatherShield® Car Covers

- "The" ultimate fabric car cover
- Repels water better, keeps car dryer, packs small and light, dries in a flash

The WeatherShield® car cover manufactured by Covercraft is the standard in top of the line car covers. It keeps your Corvette dryer, is softer against your paint's fine finish, dries faster and breathes better than anything on the market today. Combine that with the fact that it has special UV inhibitors and you've got an unbeatable combination. Technically speaking, the fabric is different because the one-layer fabric goes thru the Nextec® encapsulation process which, non-technically speaking, is the very best way to make an extraordinary fabric. In fact this process also gives this fabric a 9 out of 10 rating for simple dust protection too! The WeatherShield® cover has

these quality features; double stitched seams, neoprene elastic front and rear for a snug fit and reinforced, non-scratch grommets for optional lock.

## Covercraft Form-Fit Indoor Car Covers

- Ideal indoor cover
- Excellent dust protection and breathability
- Exclusive body-hugging fit

Covercraft's Form-Fit™ covers are ideal for protecting beautiful paint finishes. The inside fibers are 100% cotton terry loop, which are sheared to a fleece-like finish to provide a super soft feel. The outer shell of woven polyester has Lycra, Spandex® added to the yarn to give the cover an exclusive, body hugging fit unlike any other cover produced. And unlike other fabrics, Covercraft's material retains its shape over an extended period of time while the 7.4oz material helps provide cushioning against accidental dings. The Form-Fit™ cover is machine washable and carries a manufacturers limited warranty of 4 years. Storage bag included.

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, return them for a full refund, credit or exchange—your choice.

**Best Parts, Best Price**

This is not just a slogan! Eckler's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices in the market today.

**Shipping and Handling**

Check Ecklers.com for current shipping and handling estimates. In the catalog, denotes items that ship via truck, and denotes oversized dimensions or weight, which incur additional charges.

**Gift Certificates**

Perfect for when you just can't decide. Available in many different amounts from \$25 right up through \$1,000. Redeemable for any items we sell.

**Need it Fast?**

Have your order delivered within 1 or 2 business days by using Express Shipping! Express Shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST. Please contact our sales team for rates.

**Same-Day Processing**

Standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, call us Monday–Friday before 1:00 p.m. EST and request same-day processing. For a small charge we'll provide special processing of all in-stock parts the same day.

**Limited Warranty**

Eckler's will not be responsible for any damage or loss caused by delays, failures, consequential damage, labor, transportation, or any other charges incurred in the replacement or repair of a defective item. Eckler's is not responsible for any consequences resulting from the installation of any parts.
